Counter strike terrorists must die

John was a conter-terorrist and was in an office and it was snowing outside but he was inside so he was warm. He had his gun in his hands and his pistol on his belt and was looking round. There were terorrists near there but John did not now where they was so he was a little scarred but not really. John heard a noise behind him so he turned around to behind him to see what the noise was. It was a terorrist who had a gun and was aiming it at John and Johns face.

"Sorry john but today is your last day alive because I am going to shoot you with this gun I have in my hands" the terorrist sayed. John was scared but knew what to do so he ducked and avoided the terorrists bollets and got out his gun and shot the terorrist in the leg and the terorrist fell down on to the ground and John said "now it is time for you to tell me where the hostages are so I can rescue them and be an hero" John said. John continued on into the offices and saw more terorrists and they fired their guns at him and he doged and the bullets missed John because he was ducking and the terorrists were shooting their guns too high. John took shoulder behind a corner and fired back and killed one of the terorrists but he ran out of ammo so hided again. The rest said "John we know you are out of ammo so come out so we can shoot you" but john would have noting to do with it and he got out his pistol and said "ok terorrists you win this time I am coming out unarrmed so you can shoot me" so the terorrists put there weapons up and john knew they would do this and he got out his pistol from his hoster and shot them all until the were dead. John continued on.

In the hostage room there were hostage. The hostage said "oh thank you John for saving me from the terorrists now lets get out of here to the rescue zone so you can be hero and i can be saved and not be

killed by terorrists" so John and hostage went. John made it to the zone but a terorrist with a shotgun popped out of no wheres and shot at John but missed and hit the hostage and killed him a lot. John yelled "noooooooo!" and shot the terorrist with the last bullet in his gun and the terorist was killed by the bullet and died. John said to the hostage "I will avenge your death if it takes every terorist on the planet to die to do it."
